

MK600-II PNEUMATIC TENSIONING UNIT

THE MOST ADVANCED INDUSTRIAL TIGHTENING TOOL

Texas Controls presents a new pneumatic tensioning unit for those industries where the electricians are not allowed. This unit was designed including the best components available to get the highest speed and reliability results in the market.

An improved oil return circuit allows to minimize the back-pressure when the oil goes back to the tank from the tensioners.

Air Supply		Max oil flow	Usable Oil capacity	Weight	Máx. Pressure	Height	Width	Length	
Flow	Pressure	l/m	l	kg	bar	mm	mm	mm	
1500 l/m	56 scfm	6 bar	0,7	6,5	23,5*	1500	440	340	380
1500 l/m	56 scfm	6 bar	0,5	6,5	23,5*	2500	440	340	380

*Without oil

» KEY ATTRIBUTE

- Compact
- Robust
- Easy to use
- High flow - Quickly
- Safe
- Light
